Safety precautions and warnings:

Read all instructions before using this appliance in order to avoid risk of accident or possible damage.

Warning / Caution

Warning

This symbol is intended to alert the user to the possible death or injury.

Caution

This symbol is intended to alert the user to the possible injury or damage.

Description of symbols

Indicates prohibition

Do not disassemble

Do not contact

Adhere the instruction strictly

Unplug from the electrical outlet

Earth the appliance to avoid the risk of an electric shock.

Warning

Do not plug multiple electric appliances into the same outlet.

This may cause abnormal heating or fire hazard.

Check the operating environment

Do not install the refrigerator in a humid (with condensation) location or an unstable surface.

Do not disassemble repair or alter.

It may cause fire or abnormal operation which leads to injury.

Be sure to earth.

If earthing is not done, it will cause break down and electric shock.

Do not bend the power cord with excessive force or do not have the power cord pressure by heavy article.

This may cause fire.

Pull the power plug out for exchanging the interior lam of the refrigerator.

It may cause electric shock

Page 2

Caution

Do not store bottled food or drinks in the freezing compartment.

Bottles may explode causing personal injury.

Prohibition

Do not store food in unstable manner.

Opening the door may trigger loose items to slip & cause injury.

Prohibition

Do not store anything other than food in the refrigerator.

Medical supplies, which need to be under strict temperature control, should not be stored in the refrigerator.

Prohibition

Do not put on top of the refrigerator.

Opening or closing the door may trigger the loose items to slip & cause injury.

Prohibition

When replacing electric components, be sure to use rated components.

Check the model, rated voltage, rated current, operating temperature etc. of the component.

When servicing the refrigerator completely remove dust or foreign substances from the housing, electric connections etc.

This can protect against the risk of fire hazard caused by tracking and short circuit.

Please wipe out foreign materials of the metal option of power plug cleanly.

Use of it as it is may cause fire.

After servicing the refrigerator be sure to check the components are reassembled in a correct manner.

The service unit should be resembled & return to its original assembly state.

Check electrical ports for the trace of moisture penetration.

When the trace of moisture penetration is detected, insulation tapping.

Unplug

Page 3

2.0 Technical Specifications

Dimensions

As mentioned in table

Capacity

Total

250/285L

Electrical Connection

Voltage 1150Volts
Frequency 60 Hz.

Power consumption

In 24 hours 1.4 kWh

Cooling agent

Type R134a

Quantity 98 g

Thermostat Cooling

Switching values

Switch on temperature
Min. 0.0 deg. C
Switch on temperature
Max. 3.1 deg. C
Switch off temperature
Min. -11.1 deg C
Switch off Temperature
Max. -6.3 deg. C
